# 1. Sprint 2 User Stories

## 1.1 US-04

*As a public user, I want to be able to request a password reset so that I can regain access to my account if I forget my password.*

Login Page

<div>Home   Log In   Register   My Profile</div>	
<div><div>Find your account</div><div>Please enter your email, username, or phone number and we'll send you a link to get back into your account.</div><div><div>1</div><div>Email, Username or Phone Number</div><div>2</div><div>Search</div></div></div>	<div><div>Reset Password</div><div><div>1</div><div>Email</div><div>New Password</div><div>Confirm Password</div><div>2</div><div>Reset</div></div></div>
<div>Find Your Account Page</div>	<div>Reset Password Page</div>

Prerequisite(s):

- The user has an existing account in the system.

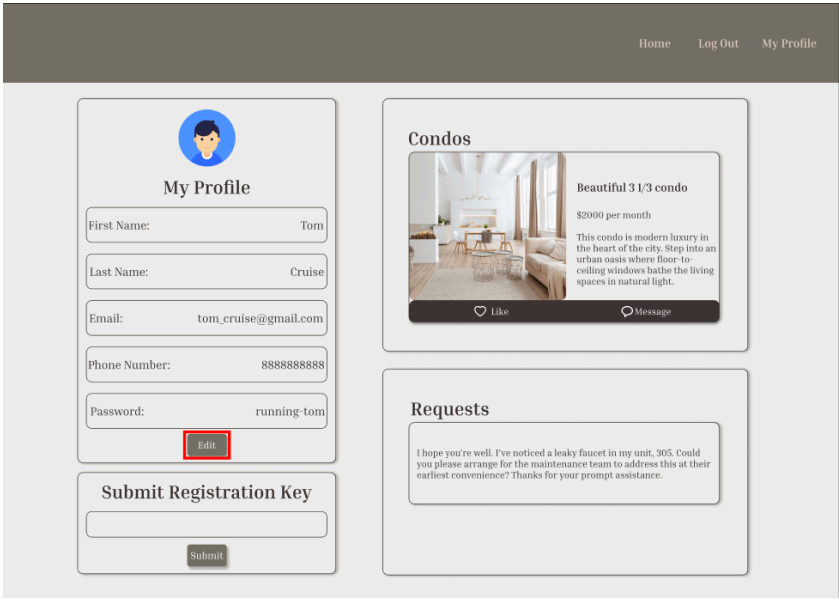

Steps:

1. The user clicks on the “Forgotten your password?” button on the login page.
2. The user enters their email, username or phone number on the “Find your account” page.
3. The user clicks on the “Search” button.

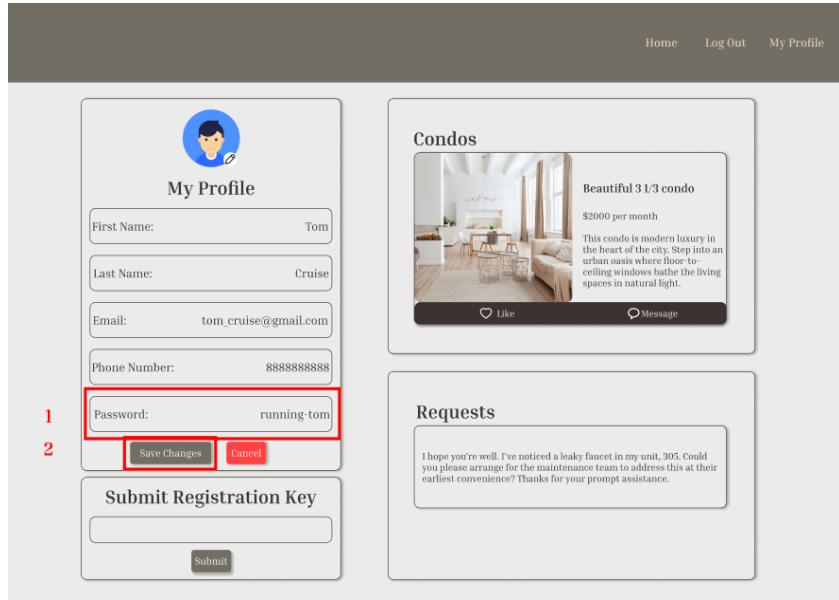

4. An email will be sent to the user with the link to the “Reset Password” Page
5. The user fills in the form with his email and his new password twice to confirm.
6. The user clicks on the “Reset” button.

## 1.2 US-05

*As a public user, I want to be able to change my password whenever I'd like, so that I can enhance the security of my account.*

**Profile Page**

**Profile Page**

Prerequisite(s):

- The user is logged into his account.

Steps:

1. The user clicks on the “My Profile” button in the navigation bar.
2. The user clicks on the “Edit” button on the profile page.
3. The user selects the “Password” textbox and types his new password.
4. The user clicks on the “Save Changes” button.

## 1.3 US-012

*As a Condo Management Company, I want to be able to request a password reset so that I can regain access to my account if I forget my password.*

Please refer back to US-04 for steps.

## 1.4 US-013

*As a Condo Management Company, I want to change my password when I'd like so that I can enhance the security of my account.*

Please refer back to US-05 for steps.

**US-014:** As a public user, I want to have a registration key from the condo company to become an owner in the system so that I can authenticate my ownership and access the owner-specific features.

**Condos**

  
**Beautiful 3 1/3 condo**  
\$2000 per month  
This condo is modern luxury in the heart of the city. Step into an urban oasis where floor-to-ceiling windows bathe the living spaces in natural light.  
Like Message

**Requests**

I hope you're well. I've noticed a leaky faucet in my unit, 305. Could you please arrange for the maintenance team to address this at their earliest convenience? Thanks for your prompt assistance.

Profile Page

Prerequisite(s):

- The user is logged into their account.

Steps:

5. The user clicks on the “My Profile” button in the navigation bar.
6. The user types his registration key in the textbox.

7. The user clicks on the “Submit” button.

## **1.5 US-015**

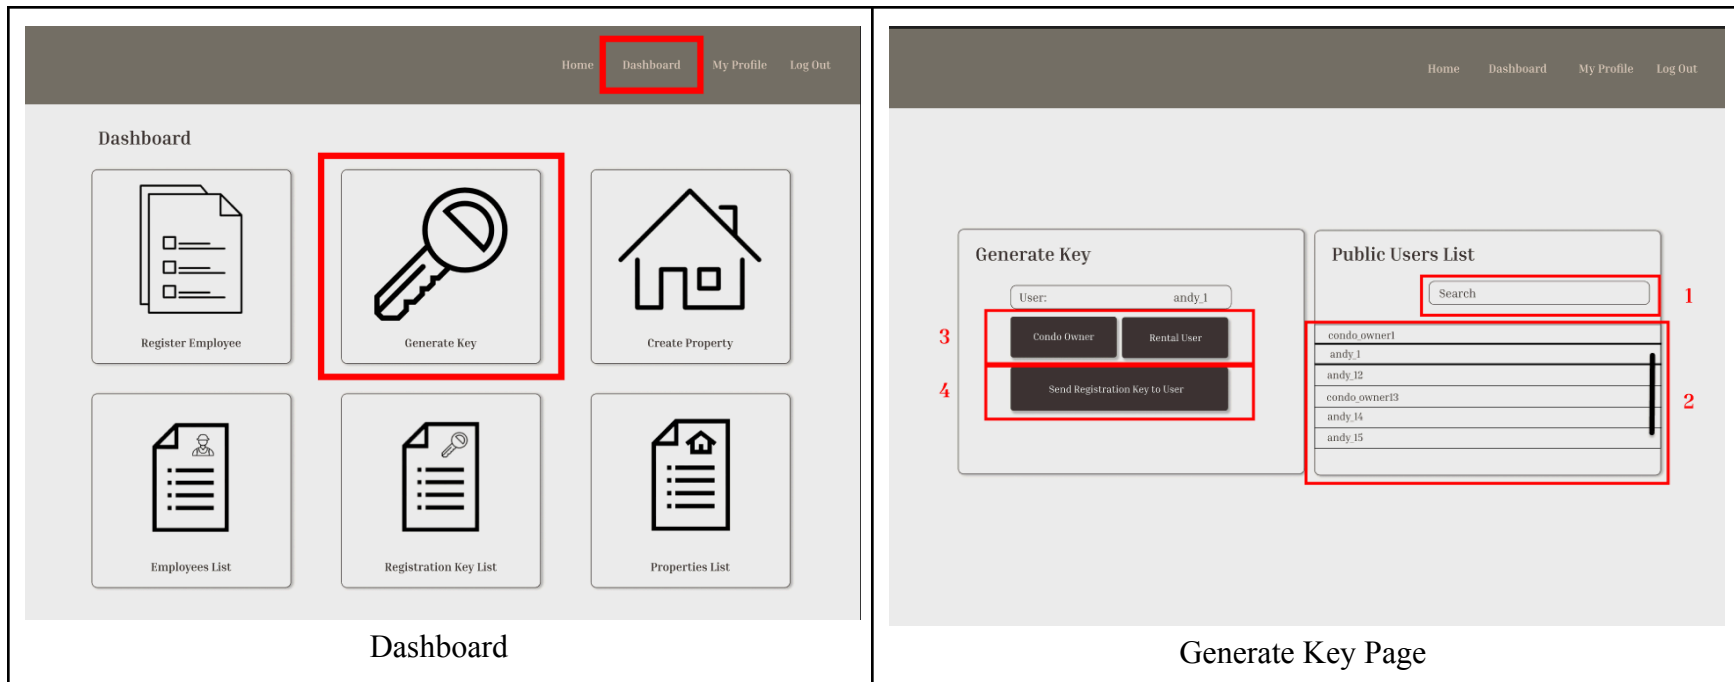

*As a public user, I want to have a registration key from the condo company to become a rental user in the system so that I can authenticate my identity and access the tenant-specific features.*

Please refer back to US-14 for steps.

## **1.6 US-016**

*As a condo management company, I want to be able to send registration keys to unit owners or rental users for their units so that they can link their profiles to their units and access relevant information and features.*

Prerequisite(s):

- The user is logged into his account.

Steps:

1. The user navigates to the Dashboard by clicking on the “Dashboard” tab in the navigation bar.
2. The user clicks on the “Generate Key” box.
3. The user types a username in the search box.
4. The user scrolls in the list of public users and clicks on the user once found.
5. The user selects either the “Condo Owner” button or the “Rental User” button depending on the public user’s role.
6. The user clicks on the “Send Registration Key to User” button.

## 1.7 US-018

*As a condo management company, I want to be able to upload condo file for each property so that all condo owners of that property can access important documents and information.*

### 1.7.1 Scenario 1: User wants to upload new condo files to a new property.

 <p>Dashboard Page</p>	 <p>Create Property Page</p>
---	--

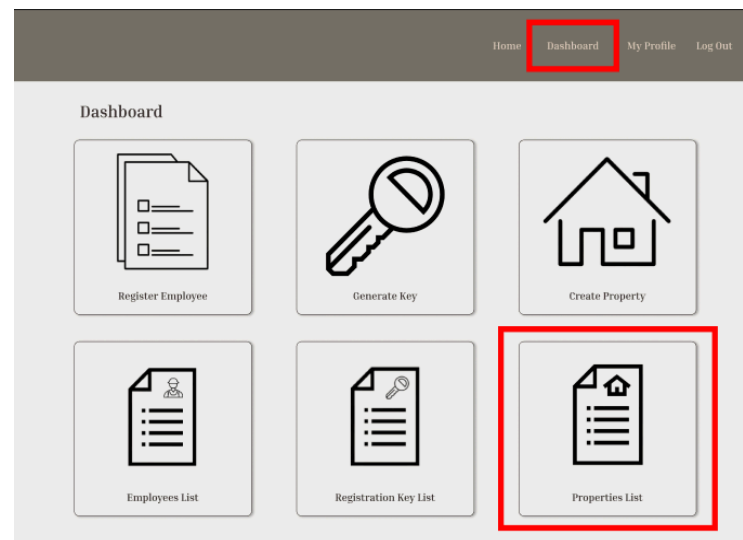

Prerequisite(s):

- The user is logged into his account.
- Condo files are in .pdf format.

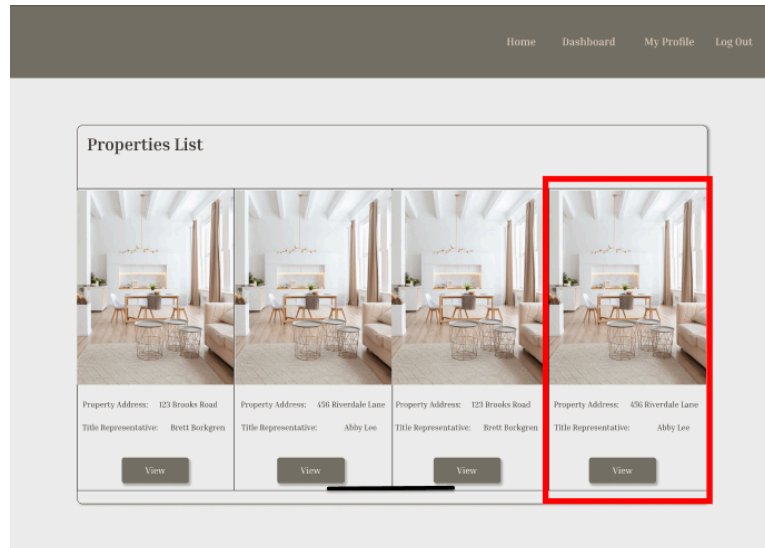

Steps:

1. The user navigates to the Dashboard by clicking on the “Dashboard” tab in the navigation bar.
2. The user clicks the “Create Property” box.
3. The user clicks on the “Upload condo file(s)” button or drag and drops condo files in the box.

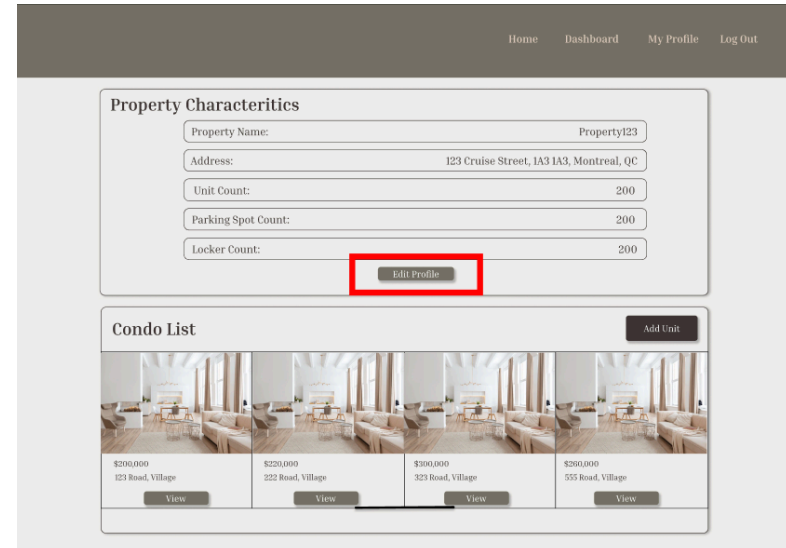

### 1.7.2 Scenario 2: User wants to upload new condo files to an existing property

Dashboard Page

Properties List Page

General Property Page

Property Profile Edit Page

Upload New Files Pop-up

#### Prerequisite(s):

- The user is logged into his account.
- Condo files are in .pdf format.
- The new condo files are not duplicates of existing condo files for the property.

#### Steps:

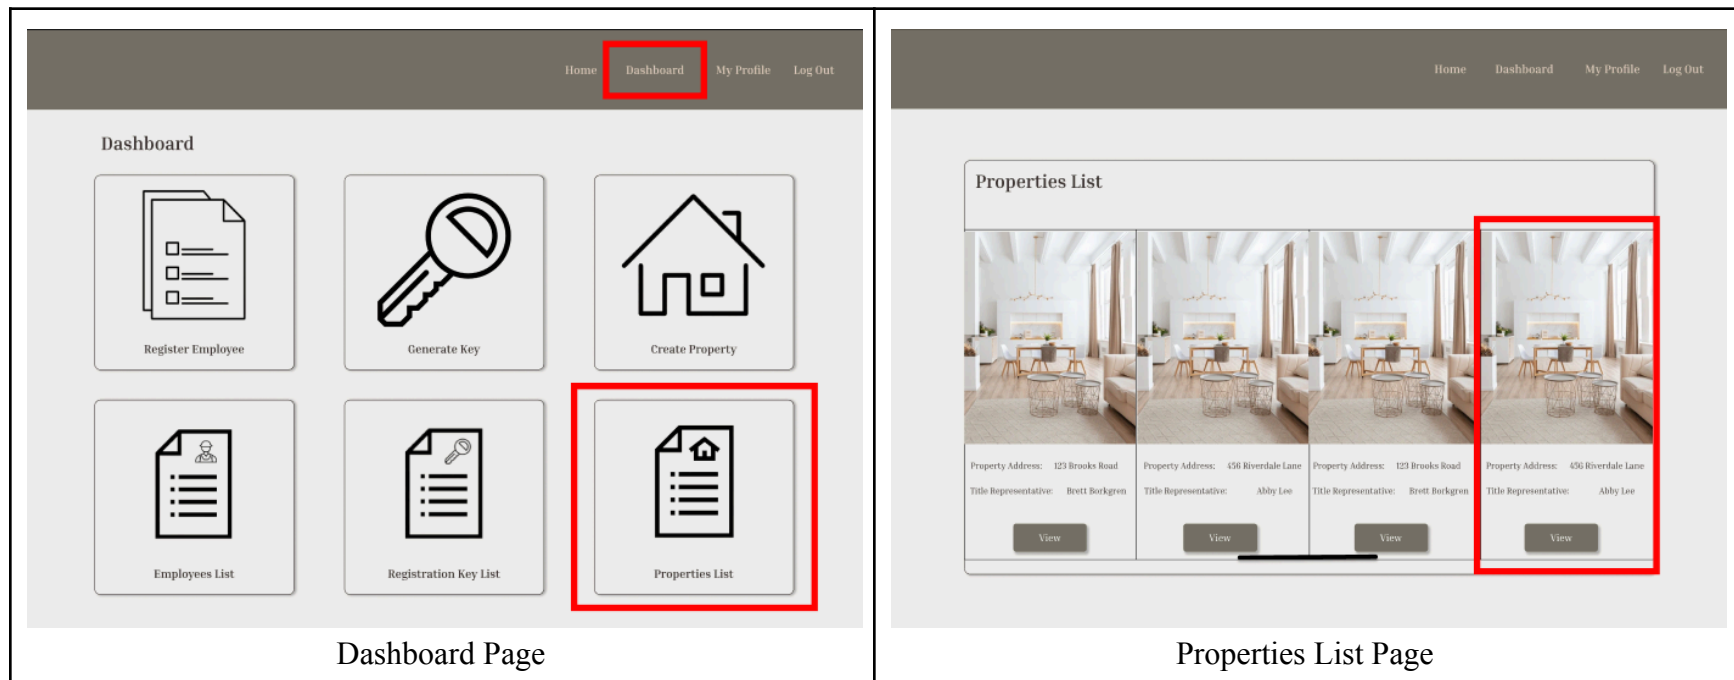

1. The user navigates to the Dashboard by clicking on the “Dashboard” tab in the navigation bar.
2. The user clicks the “Properties List” box.
3. The user scrolls through the list of properties and clicks on the property they desire to upload a condo file for.
4. The user clicks the “Edit Profile” button in the General Property page.

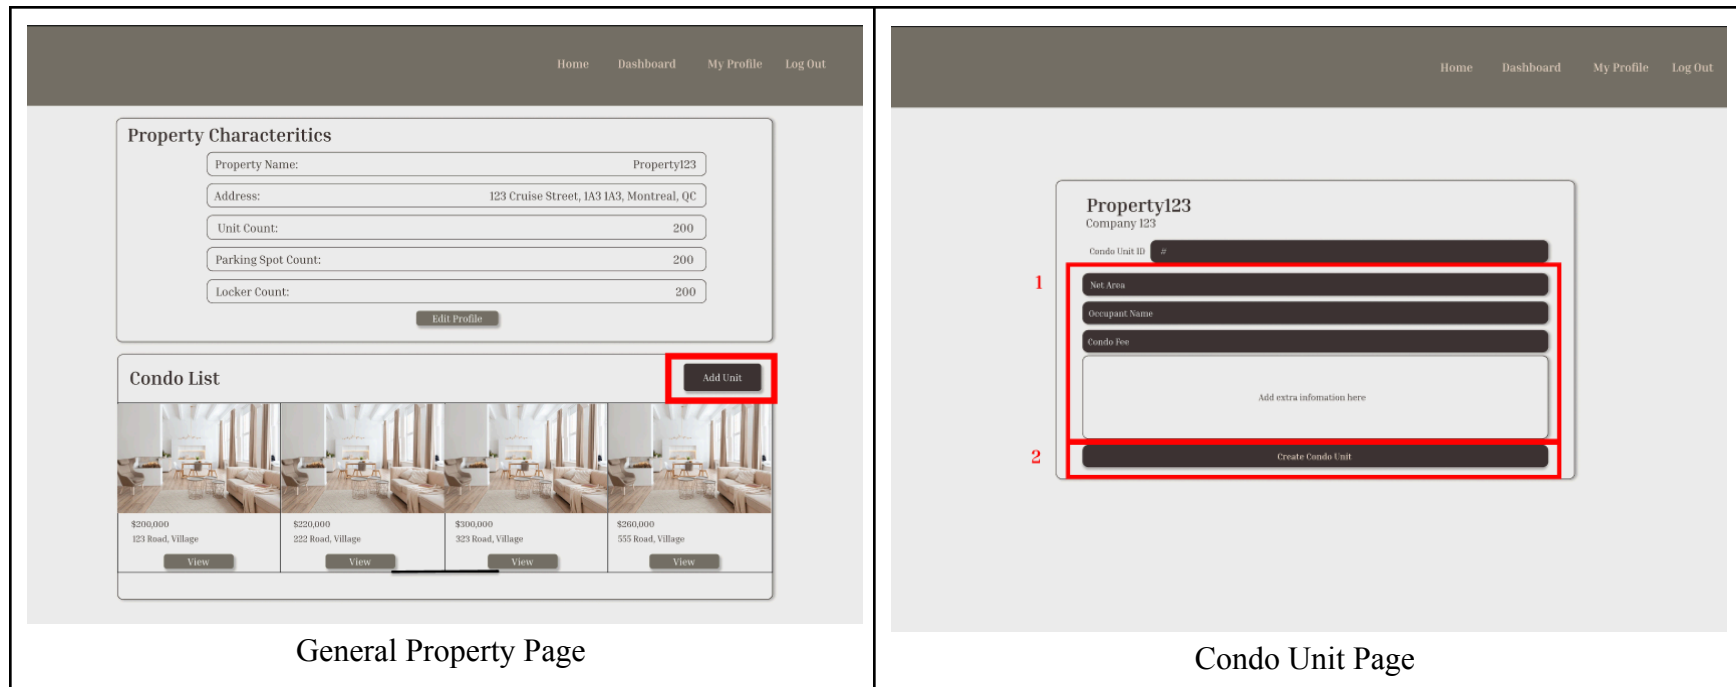

5. The user clicks on the “Upload file(s)” button in the Condo Files section of the Property Profile Edit page.
6. The user uploads new condo files or drag and drops condo files in the “Upload New Files” Pop-up.
7. The user clicks the “Save condo file(s)” button.

## 1.8 US-019

*As a condo management company, I want to be able to enter detailed information for each condo unit (condo unit, parking spot, locker) so that I can keep track of all assets, amenities and their details.*

### 1.8.1 Scenario 1: User wants to enter detailed information for a new condo unit

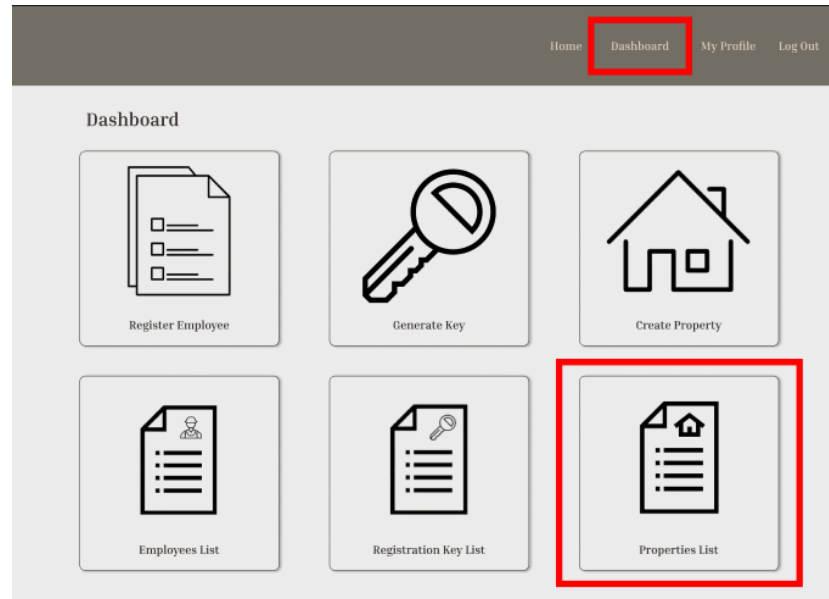

#### Prerequisite(s):

- The user is logged into his account.

#### Steps:

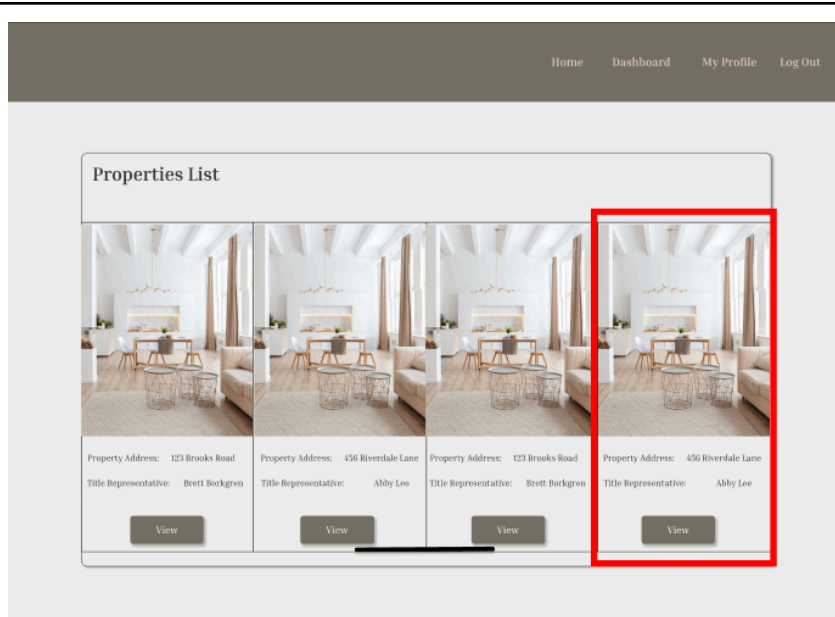

1. The user navigates to the Dashboard by clicking on the "Dashboard" tab in the navigation bar.
2. The user clicks the "Properties List" box.
3. The user scrolls through the list of properties and clicks on the property once found.
4. The user clicks the "Add Unit" button in the Condo List section of the General Property page.
5. The user fills the form for required information and any additional detailed information about the condo unit.
6. The user clicks the "Create Condo Unit" button to save the information.

### 1.8.2 Scenario 2: User wants to enter detailed information to an existing condo
