## Legend

Table background color	Color Meaning
Purple	User story is in the process of being implemented
Blue	User story has been implemented and its implementation is completed
Green	User story has been created during this sprint
Yellow	User story has been completed, but it's description has been edited during this sprint
Red	User story has been removed from the scope of the project and their respective story points have been subtracted from the total

#### 1. Requirements

#### 1.1 Non-Functional Requirements

**Requirement 1**: The Condo Management System shall ensure mobile accessibility on Android, iOS, Linux, MacOS, and Windows devices, promoting usability for users across diverse platforms.

- Quality Attribute: Usability
- Sub-Quality Attribute: Accessibility
- Subject: Condo Management System
- Action: Accessible on multiple platforms
- Constraints of Action: Accessible on Android, iOS, Linux, MacOS, and Windows

**Requirement 2**: The Condo Management System shall support English and at least one additional language, enhancing usability for a multilingual user base.

- Quality Attribute: Usability
- Sub-Quality Attribute: Accessibility
- Subject: Condo Management System
- Action: Multilingual support
- Constraints of Action: Available in English and at least one additional language

**Requirement 3**: Users shall have the flexibility to log in using their Gmail account or other Single Sign-On options.

- Quality Attribute: Usability
- Sub-Quality Attribute: Authenticity
- Subject: User
- Action: Login
- Constraints of Action: Valid login through Gmail or other Single Sign-On options

**Requirement 4**: The system shall have a response time of less than 5 seconds, ensuring quick interactions for users.

- Quality Attribute: Performability
- Sub-Quality Attribute: Time Behavior
- Subject: Condo Management System
- Action: Response
- Constraints of Action: Within 5 seconds

**Requirement 5**: Financial data, including condo fees and costs, shall be encrypted to ensure privacy, and only authorized users can decrypt the information.

- Quality Attribute: Privacy
- Sub-Quality Attribute: Confidentiality
- Subject: Financial Data
- Action: Encryption
- Constraints of Action: Decryption for authorized users only

**Requirement 6**: At least 10 users should be able to access the application concurrently, ensuring optimal performance.

- Quality Attribute: Performability
- Sub-Quality Attribute: Capacity

Subject: Condo Management System

Action: Access the system

Constraints of Action: At least 3 Users

#### 1.2 Functional Requirements

**Requirement 1**: Public users must provide a unique registration key from their condo management company to become condo owners or rental users in the system.

Quality Attribute: Security

Sub-Quality Attribute: Authenticity

Subject: Public User

• Action: Register as condo owner or rental user

Constraints of Action: Valid registration key required

**Requirement 2**: Condo owners should have access to a comprehensive dashboard displaying property information, including personal profile, condo details, and financial status.

Quality Attribute: Usability

Sub-Quality Attribute: Accessibility

Subject: Condo OwnerAction: View dashboard

• Constraints of Action: Accessible property details and financial status

**Requirement 3**: The system shall allow the user to view and edit their profile information.

Quality Attribute: Usability

• Sub-Quality Attribute: Accessibility

Subject: Condo Management System

• Action: View & edit profile

Constraints of Action: Must be logged in

**Requirement 4**: The system shall allow registered users to log in to the condo management system.

Quality Attribute: Security

Sub-Quality Attribute: AuthenticitySubject: Condo Management System

• Action: Login

Constraints of Action: Allow valid users

**Requirement 5**: A user can try to login 5 times before getting blocked.

Quality Attribute: Security

Sub-Quality Attribute: Authenticity

Subject: UserAction: Login

**Requirement 6**: The system shall allow valid users to recover/change their password when the user forgets or desires to change it.

Quality Attribute: Usability

Sub-Quality Attribute: OperabilitySubject: Condo Management System

Action: Recover PasswordConstraints of Action: Valid user

**Requirement 7**: Condo management companies must be able to upload condo files for each property, ensuring easy access for condo owners.

Quality Attribute: Usability

Sub-Quality Attribute: ManageabilitySubject: Condo Management System

• Action: Upload condo files

• Constraints of Action: Secure access for authorized users

**Requirement 8**: The system shall support the entry of detailed information for each condo unit, parking spot, and locker, including owner details and associated fees.

Quality Attribute: Completeness

• Sub-Quality Attribute: Data Accuracy

Subject: Condo Management System

• Action: Enter detailed information for condo units, parking spots, and lockers

Constraints of Action: Accurate and up-to-date data entry

**Requirement 9**: Condo management companies should be able to generate and distribute registration keys to unit owners or rental users for linking their profiles to specific units.

Quality Attribute: Security

• Sub-Quality Attribute: Authorization

• Subject: Condo Management System

• Action: Generate and distribute registration keys

• Constraints of Action: Authorized access to key generation and distribution

**Requirement 10**: The system shall calculate condo fees for each unit based on factors such as square footage and parking spot allocation.

Quality Attribute: Accuracy

Sub-Quality Attribute: Efficiency

Subject: Condo Management System

• Action: Calculate condo fees

• Constraints of Action: Accurate calculation algorithms

**Requirement 11**: Condo owners and rental users should be able to reserve common facilities using a calendar-like interface.

Quality Attribute: Usability

Sub-Quality Attribute: Interactivity
Subject: Condo Owner/Rental User
Action: Reserve common facilities

• Constraints of Action: Clear and intuitive reservation process

## 2. User Stories Backlog
